Subject: Gold King Mine assessment

Enesta,

Good morning. I hope this email finds you well on another busy week (first-ever methane regs!), but I was curious if you could provide for me any additional information about

DOI's upcoming assessment into what happened to trigger the wastewater release at the Gold King Mine.

Does EPA know what DOI subsidiary will be heading up the investigation? What techniques will be used to conduct the assessment? Are there established protocols for investigations of this type and magnitude?

Writing a story that is facing a 1:30pm deadline. Thanks!

Sincerely,

Daniel Bloom

Energy Reporter
